Prospects of re-claiming
control

Bourdieu and exclusion

- Domination re-produced in interaction
- Macro and micro actors
- Variable access to power resources - capitals:
 - Economic
 - Political
 - Social
 - Symbolic

Reclaim these resources

- Micro actors collective self activity
- Not 'power over' but 'power to' Holloway
- Not 'freedom from' but 'freedom to' TH Green
- Representative democracy augmented by direct action and direct democracy
- Implies parallel autonomy

Synchronic v diachronic

- Social Movement theory – Melucci
- Diachronic – mobilisation for revolt
- Synchronic – alternative, different and autonomous space and boundaries
- Not necessarily alternatives
- Explore relation between them

<u>Power capital</u>	Tower	Pedestrian

Transgressive?

- Deviant mainstreaming
- Incremental radicalism
- Both dependent on analysis of context
- Challenge
 - Jobs and restrict market
 - Indigenous capital
 - Sustain self activity – inspire and aspire
 - Expose contradictions
 - Inspire emulation of example
